PHD PROGRAM AT ICMR-NICED:

BIO-MEDICAL RESEARCH

We have one of the best pool of Biologists of the country to guide you in the laboratory and per-clinical research to ignite your spirit to innovate.

EPIDEMIOLOGY & CLINICAL RESEARCH

The epidemiology division is geared up to train you different methods of surveys, surveillances, other methods of epidemiological research and even clinical trials. There are scopes for excellent field exposures.

BACTERIOLOGY & ANTIMIROBIAL RESISTANCE

The institute offers one of the best infrastructure for research on the field of antimicrobial resistance, gut pathogen or other bacteria and virus. The Institute also has expertise to train on parasitology and virology including HIV.
